batroller B8

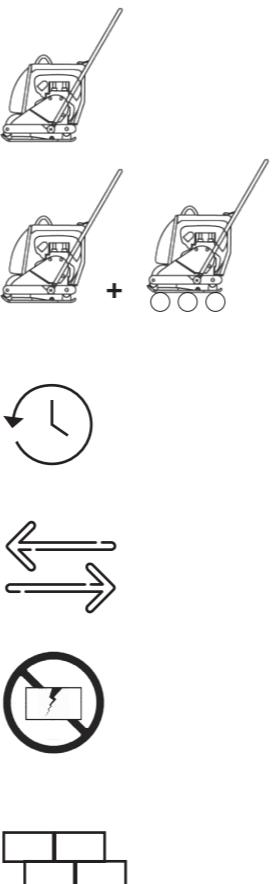

batmatic

Batroller je pametna oprema, dizajnirana od strane Batmatic-a, za polaganje podova na otvorenom. Koristi se za daske, ploče, betonske blokove i prirodni kamen, osiguravajući profesionalno nabijanje na najvišem nivou.

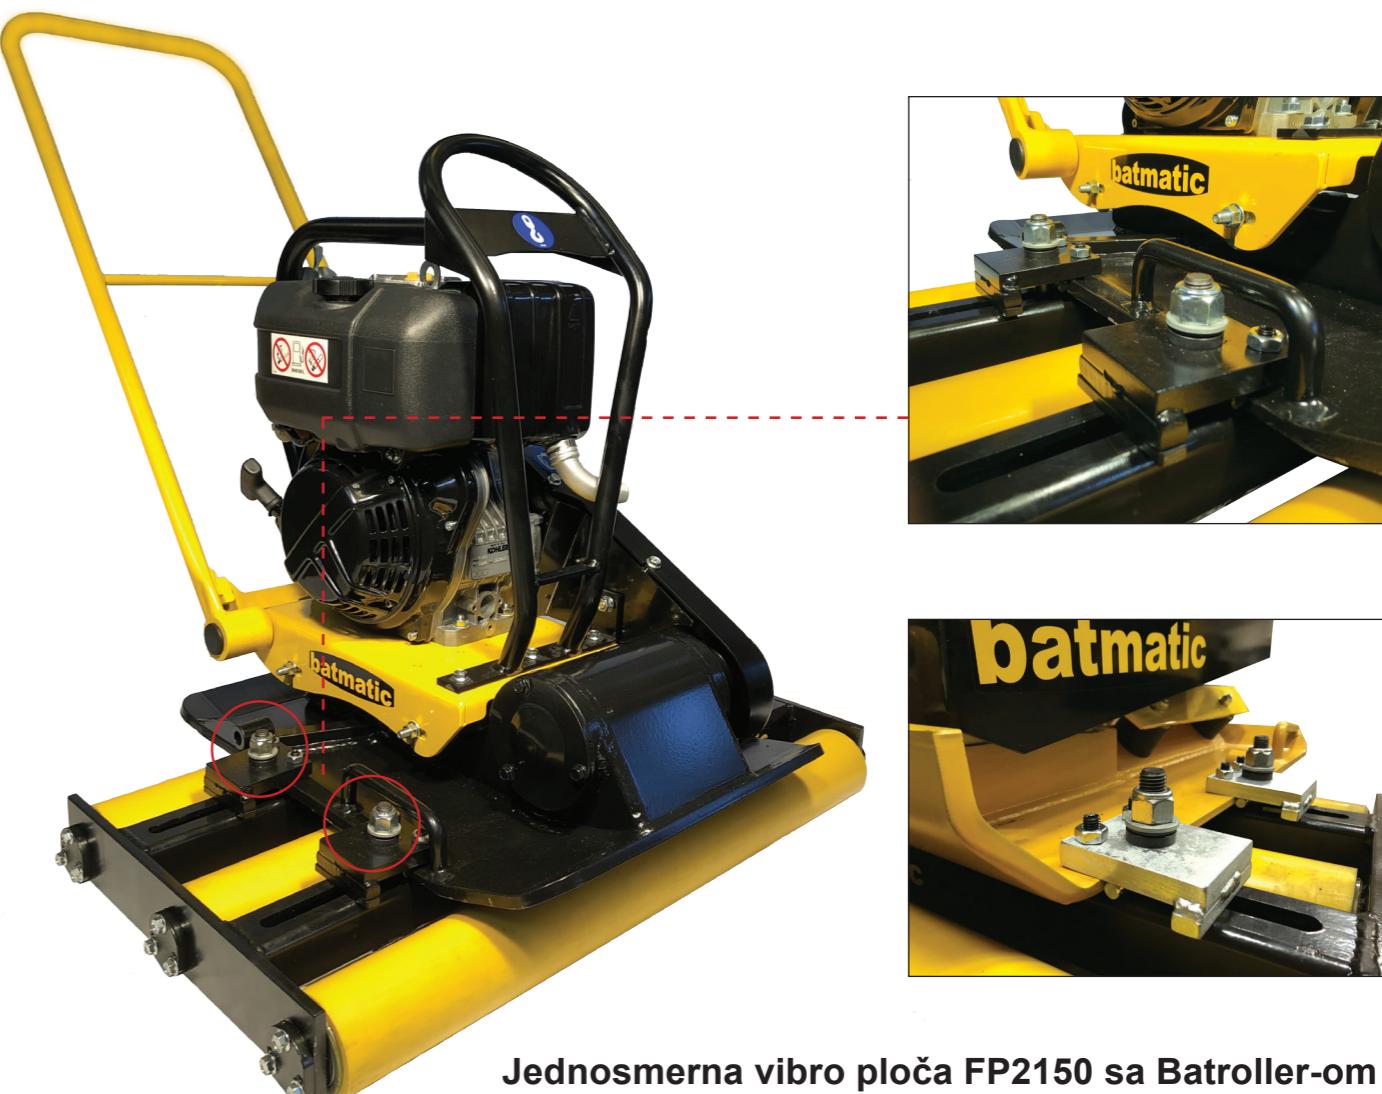

Batroller is the smart equipment, designed by Batmatic, for the laying of outdoor flooring. It is used particularly for planks, slabs, concrete blocks and natural stone, ensuring a professional compaction at the highest level.

Jednostavno, inovativno, lako za rukovanje. Simple, innovative, easy to handle

- ✓ Batroller se može instalirati na sve vibro ploče od 16 do 30 kN
Batroller can be installed on all plate compactors from 16 to 30 kN
- ✓ Dve vibrirajuće ploče u jednoj - Batroller svaku vibro ploču pretvara u reverzibilnu vibro ploču
Two vibrating plates in one: Batroller makes your forward plate a reversible plate
- ✓ Dve vibrirajuće ploče u jednoj - Batroller svaku vibro ploču pretvara u reverzibilnu vibro ploču
Thanks to the roller width and the feed speed, working times are reduced up to 60%
- ✓ Jednostavno rukovanje - manje napora za operatera
Easy to handle = Less effort for the operator
- ✓ Inovativni premaz valjaka izbegava lomljenje i usitnjavanje najosetljivijih materijala
The innovative coating of the rollers avoids breakage and chipping of the most delicate materials
- ✓ Valjci ne pomjeraju podove, skraćujući vreme repozicioniranja
Rollers do not move the flooring, cutting out repositioning time
